

HOW IT WORKS

1. SEPARATE SCREENS FOR DIFFERENT USERS

- Administrator (On-site during each session)
- Audience (Submit question anonymously or with identification)
- Moderators (Review and select questions for Q&A sessions)
- Display (Shows submitted questions to the audience on the front screen)

2. HOW TO USE THE MODERATOR'S SCREEN

- Go to <http://mod.askaslms.com>
- During a session the questions for each talk (as submitted by the audience) are displayed and updated automatically (Approximately every 10 seconds)
- Use Expand (+) and Collapse (-) icons to read lengthy questions
- Use checkboxes to select the final list for the Q&A sessions
 - Plenary Session - Q&A is held after each talk
 - PDT/Dermatoplastics Session Saturday 3:30 pm - 5:10 pm - Q&A is held after each talk
 - Luminary Sessions - Q&A period is held after each series of topic talks, e.g. Q&A after Pigmented Lesions
- Click the "I am done selecting question" button to finalize the questions that will be posed to the speakers
- At the end of each Q&A session, screen automatically resets for the next series of talks

If you have questions or experience technical difficulties please CONTACT the Administrator located at the right side of the Grand Ball Room:
